

elipson® | W35 +

CONNECTED LOUDSPEAKER

Elipson redefines the concept of a spherical speaker design with the W35+ loudspeaker.

With future proof connectivity, capable of delivering physical impact sound coupled with true stereophonic configuration.

Wireless connection modes (Wi-Fi and Bluetooth) and Ethernet link provide instant access to millions of high-definition music titles. But it will also allow you to amplify analogue sources, which simply connect in wired mode.

When you add another Elipson system to your network, you can establish a connection between the different devices in Wi-Fi. You can play your music in all the rooms simultaneously or a different music in each room, as you wish.

TECHNICAL

Type

2-way active sealed loudspeaker

Drive units

Mid-Woofer: 2 x 6,5" High power handling with large magnet and large excursion
Tweeter: 2 x 1" high quality silk dome with heatsink in the back of magnet for better cooling

Frequency response (± 3dB)

47 Hz - 22 kHz

Voltage

110 / 240V

Inputs

Ethernet RJ45
Digital optical S/PDIF
Analog AUX In (3,5mm mini jack)

Audio streaming

MP3
WMA
WAV
FLAC
AIFF ALAC (Apple Lossless)
AAC
Up to : 24bit/44.1kHz

Network

Multiroom Wi-Fi 2,4GHz IEEE 802.11 b/g/n
Ethernet
Audio multiroom up to 10 units, depending on the quality of the network

Bluetooth

Bluetooth v5.0 aptX HD
Formats: SBC, AAC et aptX

Application

Elipson's app supports up to 10 devices
Supports Android/iOS system.
Elipson's app includes Spotify, Qobuz, Tidal, Napster, Tunein etc.
