

Perfect sonic cohesion when listening to films or concerts.

The Elipson Horus 10C centre loudspeaker is dedicated to home cinema compositions and allows you to create a complete surround system at an affordable price.

2-way acoustic design, it is composed of a 130 mm low-midrange speaker made of cellulose pulp surfaced with glass fibre and a 25 mm neodymium silk dome tweeter.

The Horus 10C is the same configuration as the Horus 11F floorstanding loudspeaker, offering perfect sonic cohesion when listening to films or concerts.

Loaded according to the front bass-reflex principle and although of reduced size, it respects the sonic density of the voices, freeing itself from any «pinched» reproduction in the midrange.

TECHNICAL

Type Center loudspeaker - 2 way - Bass - reflex	Sensitivity 91 dB / 1W / 1m
Port Front ported - Tuned Freq. : 62 Hz	Impedance 6 Ohms
Power 100 W RMS	Terminal Single wire
Drive-units Mid-Woofer : 2 x 5" Mixed of glass fiber and paper Tweeter : 1" silk dome - Neodymium	
Crossover - Fc 2500 Hz - 12 dB / 12 dB	
Recommended power amplifier 30 - 150 W	
Frequency response (±3dB) 52 - 25 000 Hz	

DIMENSIONS WEIGHT

Dimensions H175 x W450 x D250	Net weight (unit) 6,2 kg
Dimensions with grille H175 x W450 x D270	

PACKAGING

Packaging dimensions W313 x H215 x D490 mm	Gross weight (pair) 7,5 kg
